# Nothing But Class™

*Hybrid Tea • cv. WEKprelarlaslo • PPAF*

What garden couldn't use a touch of elegance? Enter the iconic Nothing But Class hybrid tea rose. This compellingly compact, bushy gem brings classic beauty and sophistication to the forefront. Upright but with less height than other hybrid tea roses, Nothing But Class delivers versatility and bloom size (some flowers topping out above five inches!). Nothing short of well-rounded and sophisticated, this plant stands out for its combination of spiral (double) blooms, extra-glossy dark green foliage and distinctive scent. With solid disease resistance against Powdery Mildew and Rust, Nothing But Class is an obvious choice for any gardener looking to spruce up a patio with pot planting or enhance a landscape.

**Flower Color:** Dark Pink
**Height/Habit:** Medium \ Upright somewhat spreading
**Bloom/Size:** Elegant, spiral form & very double / Large, around 4 to 5" diameter, mostly single (50 to 130 petals)
**Re-Bloomer:** Repeat blooms throughout season
**Fragrance:** Strong, sweet & fruity (Rated 8/10)
**Cut Flower:** Yes

# Fashion Forward™

*Floribunda • cv. WEKlopunsili • PPAF*

Just as high fashion often takes cues from nature, the Fashion Forward pink and white rose elevates old-fashioned, English styles to the next level. This showstopper rose boasts oversized floribunda clusters against gorgeous glossy greenery, promising fresh looks, the perfect shade of pink and plenty of panache in the garden this year. Both striking and inspiring, Fashion Forward is the complete package: a compact plant size with abundant blooms, notable color retention and excellent disease resistance. With just a few stems you'll have an eye-catching vase—and enjoy an equally memorable sweet citrus scent.

**Flower Color:** Medium pink & white bicolor
**Height/Habit:** Medium \ Upright slightly spreading

# Living the Dream™

*Grandiflora • cv WEKsureliopa • PPAF*

Just as the name suggests, Living the Dream brings your floral fantasies to fruition. Bodacious, bright and overflowing with visual intrigue, this rose is an instant vision in any landscape. With a petal count as high as 160, bigger is better for this grandiflora hybrid rose, delivering the fullest, color-rich flowers imaginable. Blooms begin yellow-gold and move to blushes of magenta, in sun-led variations of color. This magnificent beauty is coupled with an intense, fruit-forward fragrance you'll experience from quite a distance! Living the Dream stands at medium height, is extremely resilient and it has idyllic flowers—quartered, cuppy-shaped blooms with clean petal shedding.

**Flower Color:** Yellow-gold, blushing magenta
**Height/Habit:** Medium-tall \ Upright moderately spreading
**Bloom/Size:** Cuppy, quartered, old-fashioned & very double / Medium-large, around 3 to 4 ½" diameter, some single, some in small clusters (90 to 160 petals)

# Warm & Fuzzy™

*Miniature • cv WEKhasamiro • PPAF*

Ready to fall in love all over again? Originally introduced in 2009, the Warm & Fuzzy Christmasy red moss mini roses are back by popular demand. Bursting with a warm, yellow center and evenly saturated, red-colored petals (that won't fade or turn blue). These baby beauties bring larger-than-life visual allure, packed in small, spiraled blossoms. Bushy and easy to grow, Warm & Fuzzy is taller than most rose plants of the miniature class (maxing out at two-feet). Known for its exquisite juniper musk (achieved by rubbing two fuzzy rose buds together), Warm & Fuzzy is a complete sensory experience.

**Flower Color:** Warm, even-toned red
**Height/Habit:** Medium-tall for the class \ Upright to moderately spreading
**Bloom/Size:** Double, spiraled, in shapely clusters / Medium-large for the class, about 2 to 2 ½" diameter (5 to 35 petals)
**Re-Bloomer:** Repeat blooms throughout season
**Fragrance:** Strong, sweet juniper when you rub the fuzzy buds (Rated 1/10)

# Light Years Away™

*Floribunda • cv. WEKderelinot • PPAF*

In a dream galaxy far, far away, lies a garden with a rose of a new magnitude. This dark magenta, old-fashioned floribunda brings aesthetic gravity to any garden, top-notch disease resistance and an out-of-this-world fruity fragrance that fills a room. An obvious addition to any gardener's constellation of flowering plants, Light Years Away stands upright with moderate spreading and easy cutting (an entire cluster of flowers is best). A rose with the impact of a supernova, Light Years Away blooms in medium to large spiral-shaped clusters, topping out at impressive petal counts of up to 100+ petals each!

**Flower Color:** Dark magenta
**Height/Habit:** Medium \ Upright moderately spreading

# Rose Awards & Descriptions

*The world of roses is ever-changing. Each year rose lovers are blessed with dozens of new introductions of all classes & colors with an increasing selection of fragrant & disease-resistant roses. The Weeks Roses breeding program is very honored to have won prestigous awards all across the globe. Throughout our catalog you will see icons indicating awards our roses have won. Below you will find information on the organizations behind the awards.*

### Weeks Roses New for 2026

*Wasco, CA*

Each year Weeks Roses evaluates 175,000 seedlings from our breeding program. After 8 to 10 years of rigorous further evaluation, only 4 to 6 varieties are chosen for introduction. New varieties must be superior to other roses to be chosen as a Weeks New variety. These roses are denoted by this icon.

### American Garden Rose Selections (AGRS)

*Multiple Locations*

Rose varieties credited with the AGRS award are those that have produced outstanding results in numerous growing environments across the United States. The vigorous testing provides credible insight and is a key indicator of the most reliable rose varieties in the country.

### International Fragrant Rose Trials

*Nagaoka, Japan*

The International Fragrant Rose Trials were started to encourage the appreciation of the beauty of fragrant roses, and to further develop the fragrant rose garden at Echigo Hillside Park. All roses are planted and brought up for two years under exactly the same conditions in the snowy and cold region of Japan.

### American Rose Society (ARS)

*Shreveport, LA*

The American Rose Society offers numerous awards for every rose variety. Entries are accepted from amateur and professional growers, and criteria vary across awards.

### American Rose Trials for Sustainability (ARTS)

*Multiple Locations*

Two ARTS Awards are offered. Regional winners are varieties that have a better overall score than the average of the two local control roses planted in each ARTS trial garden. ARTS Master Roses are exceptional varieties that earn four or more regional awards. trustedroses.org .

### Royal Horticulture Society Award of Garden Merit

*Wisely, United Kingdom*

The RHS Award of Garden Merit helps gardeners in the United Kingdom choose not only the best roses for their gardens but the best plants. Awards are given after a trial period and a round table discussion to to debate the characteristics and garden performance that the Society is unable to trial.

### All-America Rose Selections (AARS)

*Multiple Locations*

For over 70 years, the AARS was the preeminent trialing and awards program. Rose varieties were evaluated over a two-year period on numerous characteristics, including hardiness, flower, & fragrance.

### Biltmore International Rose Trials

*Asheville, NC*

Biltmore International Rose Trials were hosted in the rose gardens at Biltmore. An independent jury tested and scored planted varieties with the goal of providing baseline criteria to home gardeners about which roses produce the strongest results.

### Portland's Best Rose

*Portland, OR*

For 115 years, the Portland Rose Society has maintained a high- quality and well sought-after awards program. This annual award is presented to rose varieties that demonstrate superior results when grown in the Pacific Northwest region. Every distinguished variety is honored with inclusion in the Gold Award Garden.

**Disease resistance displays** detailed in this catalogue are not guarantees, but the summary results of field trials in various locations in the United States. For best results, regular nutrient feeding and care, particular to your location will help provide the most vigorous, beautiful and disease resistant roses. Spraying where appropriate for local conditions in addition to the particular variety's natural resistance will help insure success.

# Rose Classes

## *Do Rose Classes Really Make A Difference When Purchasing a Rose? Absolutely!*

### Hybrid Teas

Large, high-centered flowers borne atop strong stems are generalized as the typical traditional rose. When the average consumer thinks of a long-stemmed rose in a vase, they probably envision a Hybrid Tea.

### Grandifloras

Between the Hybrid Teas & the Floribunda classes you will find "Grandies". Boasting large flowers borne in clusters, rather than on a single stem. Plant habit is usually taller & broader than the Hybrid Tea.

### Floribundas

Not as "beefy" a plant as the Grandiflora but characterized as a medium sized, compact rose plant with medium sized flowers mostly borne in clusters. Stems are shorter than Hybrid Teas & Grandifloras.

### Shrubs

Free-blooming plants with differing flower sizes & forms. They broadly vary in mature size but all are of full bushy attractive habits & usually display good disease resistance & hardiness. Shrub roses are mostly grown on their own roots.

### Climbers

Trellised roses may be trained to grow on a variety of forms to achieve a special function or unique look and all are used to sculpt that private space filled with color & perfume.

### Patio

Our Patio roses aren't your every-day super-market minis. They are 16-month-old field-grown bareroot plants that typically grow between 24–30" in height. Powerfully flowerful petite bushes are small flowered with proportionately smaller foliage.

### Groundcovers

Groundcover roses are Shrub roses with more spreading habits & good disease resistance that can be utilized in the landscape to achieve low growing mass plantings. Groundcovers are mostly grown on their own roots.

### Rugosas & Foetidas

Rugosa roses are a species valued for landscape use. Cold hardy & frequently used in mass plantings in coastal areas or highway plantings, their disease resistance, flower & hip interest provide seasonal color with little maintenance.

# About Face®

*Grandiflora • cv. WEKosupalz • Pat.#17,305*

This bi-color medal-grabber is a lasting golden-orange on the inside with a distinct darker bronze-red outside. Yet it's not just the flying colors that will cause a flap. It's a turning point as a plant, too, with superb vigor, lush clean green leaves and loads of blooms.

## Fun in the Sun™

*Grandiflora • cv. WEKpupmobalip • Pat.#33,325*

This Grandiflora maintains its color to the end and provides a delightfully intense, fruity scent, inviting butterflies and other pollinators to the garden. It's a true English-style rose that contains 60 to 85 petals in each of its 3 to 4" flower heads, appearing in clusters of 5 or 6 blooms per stem. True to its name, Fun in the Sun thrives in full sun with thorough watering early in the day. It's perfect for bringing a sophisticated ambiance to border gardens. We love it as an eye-catching focal point in bouquets and vases, too.

# Nothing But Class™

*Hybrid Tea • cv. WEKprelarlaslo • PPAF*

What garden couldn't use a touch of elegance? Enter the iconic Nothing But Class hybrid tea rose. This compellingly compact, bushy gem brings classic beauty and sophistication to the forefront. Upright but with less height than other hybrid tea roses, Nothing But Class delivers versatility and bloom size (some flowers topping out above five inches!). Nothing short of well-rounded and sophisticated, this plant stands out for its combination of spiral (double) blooms, extra-glossy dark green foliage and distinctive scent. With solid disease resistance against Powdery Mildew and Rust, Nothing But Class is an obvious choice for any gardener looking to spruce up a patio with pot planting or enhance a landscape.

**Flower Color:** Dark Pink
**Height/Habit:** Medium \ Upright somewhat spreading
**Bloom/Size:** Elegant, spiral form & very double / Large, around 4 to 5 inch diameter, mostly single / 50 to 130 petals

# Parade Day™

*Grandiflora • cv. WEKmeroro • Pat.#28,990*

Remember the excitement of lining up in the street as a child to see a parade? Well, we took care of bringing this joy into your garden with the rose Parade Day. The swirl of bright white and fuchsia pink novel coloration brings to mind the movements of the floats. And don't worry - the show will not be over soon as the flower color holds until the petals drop. Just as fond childhood memories include both sights and smells, Parade Day blooms profusely with elegant buds and flowers accompanied by a very pleasant strong citrus-like fragrance with hints of spice. The petals of each bud are perfectly organized like a well-synchronized marching band. The rhythm created is enhanced with attractive large foliage on a well-covered vigorous plant. Now, let's bring family and friends into the garden to enjoy the performance!

**Flower Color:** Fuchsia pink striped with bright white

# Picture Perfect™

*Hybrid Tea • cv. WEKmamoprela • Pat.#35,384*

A classic Hybrid Tea with eye-catching hot pink petals, made more striking by solid cream color on the reverse of each petal. The cream reverse color really makes the hot pink "jump" out. Elegant flowers with shapely pointed, spiraling buds. A true Hybrid Tea with one long-stem per flower, makes Picture Perfect "perfect" for stunning bouquets. Re-blooms throughout the season, so you can bring the beauty inside for bouquets all summer long! Large double flowers hold their vivid color until the petals drop. As the petals drop, they will sprinkle hot pink petals on the ground for an extra visual attraction. Mature petals drop leaving a clean appearance, rather than turning brown and holding on the stem as many older varieties do.

**Flower Color:** Fuchsia pink with white reverse

# Pop Art™

*Grandiflora • cv. WEKgoagroro • Pat.#35,014*

Unlike most striped roses, which typically feature red blooms with light yellow striping, the flowers of this unique variety are pastel pink with stripes that are deeper yellow. As a non-clustering Grandiflora, its lush flowers grow one to a stem, not together in bunches. You'll appreciate how the glossy foliage sets off the blooms so well. Pop Art offers long-lasting colors, a moderately fruity scent, and very strong resistance to diseases such as Rust and Powdery Mildew.

**Flower Color:** Pink & yellow striped

# Uptown Girl®

*Grandiflora • cv. WEKabacima • ®*

As sweet and fashionable as its namesake, Uptown Girl is a must-have for a showy backyard garden or set in front of a bay window. An old-fashioned style rose, Uptown Girl blooms with the quartered look typical of English roses. Its petals are tucked into a cup shape, in serried ranks with a scalloped appearance. Medium-sized, coral-pink flowers feature a darker reverse and outstanding color retention. If you haven't tried grandifloras, this is a great beginner's rose, thanks to its resistance to rust, powdery mildew, and downy mildew. Grandiflora roses are a combination of hybrid teas married with floribundas, and achieve the graceful blooms of a tea with the hardiness and zeal of the Floribunda.

**Flower Color:** Warm coral-pink with a deeper orange-toned interior
**Height/Habit:** Medium / Rounded & bushy
**Bloom/Size:** Old-fashioned, spiraled & fully double / Medium-large, around 3 ½ to 4 ½" diameter, mostly single (70 to 90 petals)
**Re-Bloomer:** Repeat blooms throughout season

# Arctic Blue™

*Floribunda • cv. WEKblufytirar • Pat.#30,951*

The tons of lilac pink blossoms of the Arctic Blue rose are like a cold arctic breeze coming to your garden. The cool tones are chilled by the unique lavender blue finish and iced with cream on the reverse of the petals. The flowers hold up well, even in high heat. The very shapely flower buds open slowly, as if they were frozen in time at their most beautiful stage for longer enjoyment; the blooms are attractive to the very end when the opened flowers let go of their petals, showering the ground in iced lavender blue snow. The drought tolerant, vigorous plant is dressed with a glossy green winter jacket of leaves, isolating and protecting the upright bush from mother nature's diseases, allowing the plant to produce a nonstop flowery snow storm.

**Flower Color:** Lilac pink fading lavender blue with cream reverse
**Height/Habit:** Medium-tall / Upright moderate spreader
**Bloom/Size:** Medium, 3 to 4" diameter, medium-sized clusters (35 to 40 petals) / Spiraled, shapely & double

# Frida Kahlo®

*Floribunda • cv. WEKcifrabaun • Pat.#29,878*

As an emblematic artist of Mexico, world-acclaimed painter Frida Kahlo needs no further introduction. She once said "I paint flowers so they will not die." Like the flowers she immortalized in her art, the rose Frida Kahlo is a lively & colorful reminder of her enduring spirit. Just as Frida is one of the most recognizable artists for her unique style, the scarlet red & gold striped flowers of Frida Kahlo are also one of a kind in the rose world. The swirl of colors intensifies as the flowers age, adding a red blush as the final touch. Like any painting needs a good stand, the flowers are set in small clusters on a healthy disease resistant plant with clean glossy leaves. If you are one of Frida's followers or simply a rose lover, join the Fridamania by adding a piece of art to your garden with the striking vibrant rounded flowers produced abundantly on the compact upright vigorous plants.

Lusciously lovely, delectable peachy-pink color sets apart this sister seedling of Sparkle & Shine. They may have their differences (peach pink vs. deep yellow), but like most sisters, they share some likenesses, too. Both are distinctive because of their large showy clusters, long-lived flowers with lovely color, round bushy super-flowerful habit, loads of glossy green leaves & consistent dark red new growth. Buy 'em both & let these sisters battle it out for who's the best in your garden.

# Ketchup & Mustard®

*Floribunda • cv. WEKzazette • Pat.# 23,289*

Slap a layer of the brightest red onto a backside of darkest yellow & set it atop the greeniest glossiest leaves. Better yet, the flowers hold on to their attention-getting tones to the very end...dropping from the well- behaved rounded plant just in time to welcome the next round of abundant blooms. Tidy enough to tuck into a landscape, lend an accent to a container or top a rose tree. No buns or weenies required. Best flower size in cooler conditions.
Bold & beautiful!

# Koko Loko®

*Floribunda • cv. WEKbijou • Pat.# 23,269*

So unusual...it looks good enough to eat...or maybe drink in this case. You just can't imagine a milky chocolate-colored bud would mature to be a solid soft lavender blossom. Early to bloom, every lovely bud spirals open with impeccable show form. The flowers last long on the plant & in the vase. Beyond its novelty, there lies a great plant....rounded, handsome & bushy...chock full of green leaves. Warm weather brings out the lavender.

**Flower Color:** Milk chocolate changing to lavender
**Height/Habit:** Medium / Rounded & bushy

# Life of the Party™

*Floribunda • cv. WEKjucistwe • Pat.#31,861 • Huntington's 100th*

This rose is a party animal when it comes to flower production. The cuppy yellow old-fashioned flowers are kissed with a pink blush when the party is over, but not too early, keeping the coloration until the petals drop. If you are too shy to invite your neighbors for a garden party, don't worry as the strong fruity smell that EXUDES from its flowers will serve as a formal invitation & attract people from far away! The long lasting blossoms are enthusiastically produced in medium sized clusters on top of an upright & bushy plant. The clean dark glossy green leaves are feeding the flower production by generating the needed energy so the party can go on & on & on!

**Flower Color:** Yellow kissed with pink on finish
**Height/Habit:** Medium / Upright & bushy
**Bloom/Size:** Old-fashioned, cuppy & very double / Medium, around 3 to 3 ½" diameter, medium sized clusters (55 to 65 petals)

# Light Years Away™

*Floribunda • cv. WEKderelinot • PPAF*

In a dream galaxy far, far away, lies a galactic garden with a rose of a new magnitude, Light Years Away. This dark magenta, old-fashioned floribunda brings aesthetic gravity to any garden, top-notch disease resistance and an out-of-this-world fruity fragrance that fills a room. An obvious addition to any gardener's constellation of flowering plants, Light Years Away stands upright with moderate spreading and easy cutting (an entire cluster of flowers is best). A rose with the impact of a supernova, Light Years Away blooms in medium to large spiral-shaped clusters, topping out at an impressive 100 petals each! Behold Light Years Away—an invitation to transform an everyday garden into a celestial wonder.

# Livin' Easy®

*Floribunda • cv. HARwelcome • ®*

All you have to do is just stick it in the ground, give it a little water, kick back and watch it grow. The foliage is so glossy green and free from black spot that the bush looks great even without flowers. But you won't have much of an opportunity to see just leaves 'cause it blooms up a storm. Scrumptious flowers of showy apricot-orange will light up your landscape. Very consistent in all climates.

# Morning Glow™

*Floribunda • cv. WEKpiflaspas • Pat.#35,155*

Wake up to a brand new morning with this fresh Floribunda. Our Morning Glow Floribunda rose combines dark green foliage, outstanding bud form, and large, nearly 4" across, old-fashioned blooms in a silky ginger-root yellow. That gorgeous contrast, along with its light tea fragrance, will set Morning Glow apart from all the other roses in your garden. Floribunda roses are defined by their large, full clusters of flowers and this variety is no exception, with romantic sunrise colors in large, bowl-shaped blooms. Excellent color retention and strong disease resistance.

**Flower Color:** Soft gold

# Oh My!®

*Floribunda • cv. WEKcisfrabo • Pat.#24,728*

This is the red that Americans love...deep, velvety, bright, and long-lasting...it's just right. Better yet, that color comes in great clusters of ruffled flowers showing off against the backdrop of glossy dark red-green leaves with very good tolerance of Rust and Powdery Mildew. The bushy full plant could be used as a flowerful hedge, a showy mass planting or just by itself...a red beacon for the American garden. Cooler temps bring out the best flower form.

**Flower Color:** Deep velvet red

# Pumpkin Patch™

*Floribunda • cv. WEKmongros • Pat.#21,605*

A color so scrumptious, it looks good enough to eat...and you certainly can if you watch out for the thorns. But it may not be the sticky sweet treat you'd expect for the delectable pumpkin-pie caramel color. Buttery rich coppery buds open into clusters of orange beauties held tightly against shiny green leaves—like happy jack o'lanterns nestled in the field. It's lip-smackin' for the landscape and certain to delight on the very first flower. Appreciates a little afternoon shade.

**Flower Color:** Caramel orange

# Queen of Elegance™

*Floribunda • cv. WEKjucstokol • Pat.#32,810*

Roses are already known as the queen of the flower world but with Queen of Elegance you are getting multi-petaled, old-fashioned medium pink and large flowers worthy of a monarch! The blooms are certainly sophisticated and elegant but the strong rose perfume is what makes this variety deserving of belonging to the aristocracy. Each long-lasting and non-fading blossom invites you to bury your nose to inhale the perfume of 'old time' roses of your dreams. Her eminence is also an excellent garden variety as the upright vigorous plant is robed with glossy dark green foliage, holding the refined blooms at the right height for your satisfaction.

**Flower Color:** Medium pink
**Height/Habit:** Medium-tall / Upright
**Bloom/Size:** Very double & full / Large, around 3 ½ to 4 ½" diameter (40 to 90 petals)

# Rosie the Riveter™

*Floribunda • cv. WEKzazou • Pat.#31,190*

Rosie the Riveter pays tribute to the women who worked in factories and shipyards during World War II. The old-fashioned unusual flowers of orangey-gold suffused with pink are surely reminiscent of that era. The exquisite pointy and shapely buds are proudly held on top of very glossy dark foliage as a feminine symbol of charm and strength. A flower representing a women's cultural icon without fragrance would not work. The moderate fruity & spice fragrance is the perfect complement. Like the tireless Rosies, the even rounded plants of Rosie the Riveter are the workhorse of the garden, producing an arsenal of flowers.

**Flower Color:** Orangey-gold suffused with pink with gold reverse
**Height/Habit:** Medium / Rounded & bushy
**Bloom/Size:** Old-fashioned & double / Medium, 3 to 3 ½" diameter (30 to 45 petals)

## Tropical Lightning®

*Climber • cv. ORAlodsem • Pat.#28,055*

The tropical warmth comes in the form of rich sunset-like orange while the dazzling lightning is generated by bright cream stripes. The effect is accentuated by a layer of purple smoke creating a burnt orange combo, perfect for a stormy sky! Each perfectly shaped bud & flower will hold that CRAZY novel color for days & the prolific and vigorous plant, which reaches mature size & full display in 3 years, will only slow down the flowering as it transitions into winter. If the extraordinary bloom colors were not enough, Tropical Lightning presents some of the glossiest leaves of all roses contrasted by the burgundy red new shoots!

# Cosmic Clouds™

*Large Shrub/Climber • cv. WEKblufstow • Pat. #36,078*

With magenta-purple flowers offering up a cloud-white reverse, Cosmic Clouds shows off a different color combination at every angle and adds intrigue as well as volume to the rose garden. Cosmic Clouds can be trained as a climber in Zones 8 to 10, and in colder zones, it performs wonderfully as a large shrub. Flowers appear in medium or large clusters, grouped in sets of three to ten blooms. Extremely full, each rose blossom is packed with over 75 petals and opens up to 3" in size. Cosmic Clouds is a fragrance fan's dream, with a strong, fruity scent that lasts in the vase. This rose fights off Powdery Mildew, Downy Mildew, and Rust with ease.

**Flower Color:** Magenta-purple fading deep purple with white reverse
**Height/Habit:** Medium-tall sized plant with a bushy upright moderately spreading habit. Long stems covered with medium glossy green foliage

# Easy on the Eyes™

*Medium Shrub • cv. WEKswechefy • Pat.#29,984*

Pleasant to look at? Attractive? Good looking? Oh yeah! All of those describe this member of the Easy-To-Love® rose collection. Decades of hybridizing to enlarge the magenta purple eye to its current size has resulted in an extremely novel color combo with the lavender pink flower coloration. The term floriferous falls short when talking about the number of flowers covering the entire rounded plant. There are so many flowers held in large clusters that you can barely see the lovely clean dark green and glossy foliage. Rest assured of the foliage's presence. We raised the bar on 'DISEASE RESISTANCE', assuring that the plant will stay well-dressed during the growing season. The moderate citrus-like & spices fragrance completes the seduction and guarantees a premium spot in the garden of whichever state you live in!

# Forever & Ever® Pink

*Shrub • cv. WEKneflosprif • ®*

This rose produces wave after wave of multi-petaled flower heads, even in part-shade. Each ombre-hued flower begins its journey as a deep pink bud, and then blooms into a beautiful pastel pink with a yellow center. These roses are fragrant, too, with a classic tea scent to delight guests and attract pollinators. The flowers don't entirely steal the show, though: Forever and Ever also offers shiny, deep-green foliage with exceptional resistance to disease. These roses bring timeless beauty to your garden, without the need to spend "forever" pampering them!

# In Your Eyes®

*Shrub • cv. WEKfybomeba • ®*

Thanks to this beautiful rose's parentage (a cross from a shrub rose and a Persian hulthemia), In Your Eyes is diamond-tough, disease-resistant, and wildly prolific. The big clusters of blooms actually start cream–yellow with a red eye and matures to lavender with a purple eye, but as each bloom appears and mature in its own time, the clusters will be fascinatingly multi-colored from spring to fall. In Your Eyes shrub rose also boasts a fragrance that is mild and fruity.

# Sultry Night™

*Shrub • cv. WEKswipufste • PPAF*

Sultry Night features large flowers in magenta pink with hints of blue. Each petal has a lighter reverse, adding a mystical shine to this shrub rose and an unforgettable heat to the garden. While the flower size of this shrub rose is smaller than the bloom size of Floribunda roses, clusters of eight to fifteen large blooms open at once for a fairytale display of color. Resistant to powdery mildew and rust, this magical rose shrub will have you spellbound.

**Flower Color:** Magenta fading magenta-purple with lighter reverse
**Height/Habit:** Medium-small / Bushy rounded
**Bloom/Size:** Old-fashioned, cuppy & very double / Medium, around 3" diameter, in medium sized clusters (60 to 100 petals)

# Sunny Knock Out®

*Medium Shrub • cv. RADsunny • Pat. #18,562*

It wouldn't bear the famous trademark, unless it carried the same great black spot resistance. In roses, deep lasting yellow color is going to be difficult to genetically combine with cleanliness. Yet Sunny gives a good effort with loads of yellow buds that pop open to white single flowers on a full bushy rounded plant. Appreciates a little afternoon shade.

**Flower Color:** Pale yellow-white

# Take It Easy®

*Medium Shrub • cv. WEKyoopedko • Pat.# 26,816*

Take It Easy, relax and enjoy life! You won't have much work to do in the garden after planting this new rose for which natural disease resistance resistance is a true statement. The dark green, shiny & healthy foliage is the perfect background to showcase the many clustering buds and flowers. With a classic red color, this dynamite rose has ideal pointy and very elegant buds. The red coloration doesn't go too pink or blue as the petals are falling away. A touch of lighter pink on reverse lights up the show of this blooming 'machine'. And that's not all! The plants excellent vigor and the naturally self-maintained habit are other reasons why you can Take It Easy!

**Flower Color:** Red with lighter reverse with a white eye
**Height/Habit:** Medium / Upright & bushy

# Top Gun™

*Medium Shrub cv. WEKmoridahor • Pat.#29,699*

Top Gun – The Best of the Best. That's a true statement as this variety has excellent 'DISEASE RESISTANCE' to major rose diseases. Just this fact alone makes it a very good new introduction for the landscape. But, with the added resistance to Rose Rosette Disease, it's truly the Best of the Best. In multiple years of trials throughout the Eastern United States, ***Top Gun*** came out standing proud untouched by Rose Rosette where most other varieties showed symptoms of infection. That's quite amazing! The top-ranked variety is also a high performer when it comes to bloom production. The rounded bushy well-behaved plant produces vigorous stems ending with clusters of long-lasting dark red flowers. For top flowering performance in the garden and outstanding clean foliage in most climates, look no further than Top Gun!

**Flower Color:** Red with a dark suffused with burgundy
**Height/Habit:** Medium / Rounded & bushy

# Playful Happy Trails™

*Groundcover • cv. WEKrahatjacor • Pat.#33,323*

Boasting a brand new coloration for its type, this sophisticated groundcover rose bears rich red blooms, each accented by a creamy white center. With a darker hue than has been seen in the Happy Trails series, Playful is sure to become a popular choice for covering bare sites in woodland gardens, landscape beds and along sunny front borders. Self-cleaning flowers have an old-fashioned rose appearance and emerge all summer long, emitting a light tea fragrance throughout the area. Like its predecessors, this rose is very easy to grow and requires little maintenance or special care.

**Flower Color:** Medium red with large yellow eye zone
**Height/Habit:** Low / Trailing & spreading
**Bloom/Size:** Decorative & single / Small, 1 to 1 ½" diameter, in small clusters (5 to 7 petals)

# Rainbow Happy Trails™

*Groundcover • cv. WEKsurdicla • Pat.#28,655*

"Somewhere over the rainbow", you'll fall in love with this treasure of a rose! The valuable gold comes in the form of beautiful flowers of vibrant yellow-gold blushed with pink on the edges of the petals. This is not just a one-time wonder as the flowers are abundantly produced throughout the year. Like the everlasting glitter of gold, the flowers are non-fading, holding their coloration until the petals drop. The habit of this vigorous good luck charm is neither rounded like a pot nor square like a treasure chest. As a true Groundcover with a trailing & spreading habit, the branches stay low to the ground to spread the rainbow throughout the garden!

**Flower Color:** Yellow-gold / Dark pink to light red blush
**Height/Habit:** Low/Trailing & spreading
**Bloom/Size:** Double, decorative & cuppy / Medium-small, around 2 to 2 ½", in medium-sized clusters (20 to 30 petals)

# Sunset Happy Trails™

*Groundcover • cv. WEKhaplamelba • Pat.#31,034*

Buds begin in a light peach surrounding yellow centers, before fading to a stunning seashell pink color. Thanks to its everblooming nature and glossy green foliage, Sunset Happy Trails is an outstanding groundcover—just like the others in this collection. Try the members of the Happy Trails collection in rock gardens, on hillsides, or in hanging baskets. Excellent resistance to downy mildew, black spot, and rust make this a perfect low-lying coverage plant, even in troublesome areas.

**Flower Color:** Salmon fading to light pink

# Sunshine Happy Trails™

*Groundcover • cv. WEKsusacofloc • Pat.#27,864*

"Some trails are happy ones. It's the way you ride the trail that counts." In this case, 'trails' is a perfectly chosen word as it describes the plant growth very well. The vigorous and floriferous plants are neither rounded nor compact. They are spreading and trailing low to the ground like a true Groundccover rose should do. To get sunshine every day in your garden even on cloudy days, there's no better choice than this rose! The cheerful flowers are produced in abundance even in the fall on medium- sized clusters. And if you need to leave a trail of fallen petals to mark your way, rest assured that you'll be able to see them clearly because the petals of this delightful variety will hold a nice yellow coloration until the end.

**Flower Color:** Medium yellow to buttery gold
**Height/Habit:** Low / Trailing & spreading
**Bloom/Size:** Semi-double / Medium-small 3" in medium-sized clusters (15 to 20 petals)

# Warm & Fuzzy™

*Miniature • cv WEKhasamiro • PPAF*

Ready to fall in love all over again? Originally introduced in 2009, the Warm & Fuzzy Christmasy red moss mini roses are back by popular demand. Bursting with a warm, yellow center and evenly saturated, red-colored petals (that last throughout the life of the flower—without fading or turning blue). These baby beauties bring larger-than-life visual allure, packed in small, spiraled blossoms. Bushy and easy to grow, Warm & Fuzzy is taller than most rose plants of the miniature class (maxing out at two-feet). Known for its exquisite juniper musk (achieved by rubbing two fuzzy rose buds together), Warm & Fuzzy is a complete sensory experience. Against a backdrop of glossy greenery, this fan favorite evokes deep comfort and a sense of ease. Just add a little warm and fuzzy to your next garden project and see for yourself.

**Flower Color:** Warm, even-toned red

# Bush Cherries

## *The hardiest tart cherries in the world!*

Developed at the University of Saskatchewan these cherries' Canadian roots run deep, allowing them to withstand extreme conditions that others can't. With easy-to-manage dwarf habits and abundant, large flowers, all four of our bush cherry selections are great looking in the landscape and produce full-size fruits that are much sweeter than longtime favorite 'Montmorency.' Suitable for growing in zones 2–7. *Prunus fruticosa x prunus cerasus.*

- Extreme cold-hardiness, down to -40 degrees F
- Naturally dwarfed size—6½ ft. tall x 6 ft. wide
- Sweeter than the widely grown tart cherry 'Montmorency'
- Fruit yields of 20–75 lbs. (Dependent on cultivar and plant spacing)
- Self-pollinating, own-root plants

## Romeo™

What can't Romeo do? A large flesh-to-pit ratio makes it super for juicing, wine, baking and more. Highly ornamental, too.

**Fruit:** Deep crimson

**Yield:** Heavy

## Juliet™

The best for eating fresh! Lower acidity and a meaty texture make Juliet a great choice for u-pick operations.

**Fruit:** Dark red

**Yield:** Heavy

## Carmine Jewel™

When productivity is a priority, consider Carmine Jewel. Its large, white blooms and sweet-tart fruits just keep coming.

**Fruit:** Purplish-red

**Yield:** Extra Heavy

# Patents

## Patented Roses

Weeks Roses is the recognized leader in hybridizing garden roses. Roses of merit are brought to commerce after a lengthy evaluation process across the US. Natural disease resistance is a priority & the roses are evaluated in a 'no spray' environment.

At Weeks Roses we only patent the best roses with truly unique qualities. Once a plant patent is issued, it lasts 20 years before it expires.

Patented roses represent the latest, greatest selections from Weeks Roses & over 100 years' worth of rose breeding experience, which means that each generation of new rose hybrids is building from the best qualities & features of the previous one.

During this 20 year patented status, patented roses are protected from unlicensed asexual repoduction by the U.S. Plant Patent Act.

Through the years, bloom form has improved & bloom cycles have been minimized. This translates into more color! Old roses such as Chrysler Imperial have 60-day bloom cycles, which means that you'll have periods of bloomless plants while awaiting new buds.

Newer patented Hybrid Teas, such as Pretty Lady Rose & All My Loving, have been bred with 45-day bloom cycles, which will ensure that your rose plant is always in bloom. With today's roses, you'll be able to choose from a wide variety of beautiful colors & intoxicating fragrances.

Modern roses have been bred with greater vigor & improved growth habits. They are also vastly more disease resistant than roses of old. And as groundbreaking roses such as Take It Easy, Watercolors Home Run & Top Gun entered the collective gene pool new Shrub roses requiring little to no maintenance will continue to emerge in the years to come.

## Non-Patented Roses

When a rose patent expires, varieties that have 'stood the test of time' are kept in production. What would a rose garden be with out Peace or Mr. Lincoln? Weeks Roses Non-Patents are popular, proven, & have familiar names that gardeners know & love.

Budded vs. Ownroot

# Rootstocks

Weeks evaluation process determines varieties that will do well ownroot & which must be budded on rootstock to have vigor.

## Budded

Budding roses on rootstock such as Dr. Huey is the proven method to replicate roses. Dr. Huey is a hardy vigorous rootstock that allows a rose to perform to its best potential.Budded roses allows a rose to perform in a wide range of soil moistures & pH.

## Ownroot

Many ownroot roses perform especially well in Northern locations where harsh winters can be a concern. In these situations where unusually hard freezes cause dieback, ownroot roses have a better chance of recov- ering & remaining true to cultivar.

Multiple varieties of Weeks' roses are offered budded as well as ownroot.

# Grades

Following harvest, roses are brought to our sophisticated processing facility where each rose bush & tree is inspected individually & assigned a grade for quality by our experienced processing staff. Each bundle of roses (five per bundle) is labeled with a plastic tag indicating the name & grade.

## Grade #1

Our bareroot bush & tree roses. Our premium roses are assigned a Grade #1.

## Grade #1.5

While the attempt is to grow the very best quality, Grade #1.5 roses are a step down from Grade #1. Grade #1.5 roses are of value, when availability & lower unit price is a consideration.

It should be noted that a Grade 1.5 rose when properly cared for in a garden situation will over time outgrow its Grade 1.5 status & fully reach its potential.

**100** Bush, Climber, Shrub & Patios **25** - Tree Roses

### Product Overview

Weeks' superior #1 & #1.5 grade 2-year plants have been our mainstay since 1938 & are grown in our fertile fields in Wasco, CA. You can grow your own large & lush container roses in 8-10 weeks or less or sell them bareroot.

### Varietal Minimums

Roses are shipped in bundles of five. Rose varietal information is identified by a plastic strip tag placed on each rose plant.

### Harvest

Bareroot plants are harvested in early winter after the plants have gone dormant to reduce stress.

### Shipping

Bareroot roses can be picked up at our Wasco warehouse or shipped directly to your location.

# Bareroot Roses

### Boxed

Roses are wrapped in a protective plastic wrapper & packed in the appropriately sized cardboard box.

### Bulk

Roses are picked up or shipped with out plastic & cardboard packing & are stacked by variety directly in the truck.

## Growing Recommendations

### Pots

Most growers use a 3-gallon container, a few use 5-gallon or larger, especially for Tree roses. 2-gallon pots work well for Patios. Make sure pots have adequate drainage.

### Soil Mix

Roses require a heavier mix than bedding plants, but a lighter mix than most nursery stock. The pH should be between 6.0 & 7. Know your pH, lime may be needed to raise the pH. A good commercial media like Fafard's #52 works very well. A good home made mix is: 1/3 composted pine bark, 1/3 peat moss, 1/3 topsoil or (compost). The addition of gypsum (calcium) to the soil mix may benefit by growing stronger canes & a more disease resistant leaf surface. The mix should have no fertilizer added to it. Fertilizing can begin once roses have sprouted (about week 3 or 4).

### Inspect Roses on Arrival

Any problems or abnormalities must be reported to Weeks Roses immediately! Pot as soon as possible. KEEP ROOTS MOIST from the time boxes are opened and throughout the potting process. Roots should be soaked overnight or for at least two hours before potting.

### Pruning

Prune away any broken/ damaged roots, canes, or twigg growth. Prune canes back to 4-6". Give roots a light pruning but leave as much as possible without having to wrap roots at the bottom of the container.

### Planting

Plant roses so the bud union is at or slightly below the soil level. Avoid potting in the wind and full sun. A shaded or indoor location is best. Tree roses should be staked.

### Watering

Water in immediately and thoroughly. Follow up with regular watering program. Soil should be kept slightly moist at all times until the roses have sprouted. Successful rose growers apply granular Subdue Maxx at this time.

### Mild Weather

In mild climates, place newly potted roses in a shaded location &, most importantly, shielded from the wind. Keep canes moist by syringing plants several times a day until sprouts appear. Some growers cover the roses with saran or white poly until breaks emerge with very good results.

### Cold Weather

In colder climates, in a greenhouse or cold frame, plants require a very humid environment along with good air movement provided by fans. After shoots are 1" long, humidity should be reduced below 85% if possible. (Make sure to fan ventilate on warm days.)

### Dormant Spray

Before the plants leaf out, apply a dormant spray to coat the canes, soil, pots and ground surface.

### Fertilizing

When the roses have shoots of 2" in length, begin fertilizing at half the recommended rate. Applying fertilizer earlier and/or at higher rates can burn the young roots.

# Tops In Pots™ Roses

## Dormant Potted Roses

*#1 Grade*
*Patented Roses*

## Minimum Order

Multiples of **5** Only

**Any Combination of**

**120** Bush, Climber, Shrub, Patio & Trees

### Product Overview

Weeks Roses is proud to present the finest quality dormant rose available in a ready-to-plant fiber container. You can have the newest & best of Weeks Roses varieties without any additional potting or maintenance costs ready to go for early spring sales.

Our super-strong root system demands a large 8 x 9" fiber pot—bigger than any other dormant plantable pot or boxed rose on today's market.

Build a comprehensive program starting with dormant Tops In Pots™ & moving into Leaf N' Bud® custom container plants.

## Marketing

### Placement

Place your Top In Pots™ in a high visibility area. Placement on an elevated surface will increase visability. Creative merchandising increases sales.

### Package Design

Our bright, bold package designs are certain to draw your customer's attention.

### Rose Photo/Information

Weeks' packaging features a showy removable 7 x 5" Picture Billboard that displays a professional photo of the rose, cultivar information & easy-to-read rose specifics—everything a retail customer needs to choose the perfect rose!

### Care Instructions

Complete care instructions are printed directly on the package.

## Rose Care

### Weather Protection

Protect your Tops In Pots™ from weather extremes like direct sunlight or freezing temperatures. In warm weather areas, place in a semi- shaded area for a week before transferring to a more sunny location. In cold climates, place outside only when danger of a hard freeze is past.

### Watering

Although the soil is premoistened, plants should be watered 2–3 weeks after shipment is received or as needed. Slit the top of the bag to let water in.

### Fertilizer

After plants have fully leafed out, use a liquid rose fertilizer per label directions.

### Pest Control

Adopt a spray program for any pests or disease. Always use chemical products as the label specifies.

## How to Plant a Weeks' Dormant Potted Rose

### Step #1

Select a location in the garden that best fulfills the requirements given in our Rose Basics.

### Step #2

Dig a hole large enough to easily accommodate the entire fiber pot at the proper height. In cold climates, position the graft knot/crown 2 to 3 inches below ground level. In mild climates, position the graft knot/ crown right at ground level. Amend the soil going back into the hole with well-rotted compost.

### Step #3

Remove the plastic bag from around the fiber pot. Prune out any dead or broken canes. With a sharp knife, remove the lip of the fiber pot to the same level as the top of the soil mix inside the pot. Make 3 or 4 six-inch vertical cuts into the sides of the fiber pot at even intervals. For best results, cut the bottom out of the pot to allow new roots to easily penetrate. Take care to not disturb the young roots when working with the fiber pot.

### Step #4

Place the fiber pot and plant at the correct level in the hole (see Step 2). Fill in the hole with your amended soil. Water slowly & deeply to wet the roots & settle the planting. Some additional amended soil may be required after the plant settles. Do NOT fertilize new plants until the new growth is 4-5 inches long.
